

RF Remote **Model: REM40**

Operating Manual

Power connection

- Connect the receiver wire connector to the marine radio connector.
- Connect the receiver power cord (red) to the position pole of 12V DC power source. The installed red LED will light on.

1. Encode/decode setting

- a. Set the encode switch of the transmitter to the desired combination.
- b. Remove the receiver switch cover.
- c. Press the (learn) button briefly. The Green LED will remain on for 5 seconds.
- d. Press any key on the transmitter (Remote Key Pad) briefly while the Green LED is illuminated.
- e. The Green LED of the receiver will blink for few seconds and then turn off. Encoding is completed.

2. Change of code setting

- a. Press and hold the (learn) button. Green LED will illuminate.
- b. Release the button after the green LED comes off.
- c. Repeat procedure (1) to set new coding.

3. To operate the remote switch

- a. Press "Power" to turn on the radio.
- b. Press "Power" again to turn off the radio.
- c. Press "Mode" to change mode status: Radio, CD player, SIRIUS or AUX.
- e. Press "Mute" to silence the radio's sound.
- f. Press "Tune -" or "Tune +" to search radio stations.
- g. Press "Vol +" or "Vol -" to adjust sound volume.

NOTE:

THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT. SUCH MODIFICATIONS COULD DAMAGE THE EQUIPMENT.

This equipment has been tested and found to comply with the limits for a Class B digital device, following Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC ID: U9F REM40
MADE IN CHINA

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
